GLOSSARY

CHAPTER 1 STATE ENERGY OBJECTIVES AND THE HAWAII ENERGY STRATEGY

1.1 State of Hawaii Energy Program	1-1
1.1.1 The State Energy Resources Coordinator	1-1
1.1.2 State Energy Policy Objectives	1-1
1.1.3 Hawaii Energy Strategy Background	1-2
1.2 Hawaii Energy Strategy 2000, Purpose and Objectives	1-3
1.3 Hawaii Climate Change Action Program	1-3
1.3.1 Hawaii and Climate Change.....	1-3
1.3.2 Hawaii and Reduction of Greenhouse Gas Emissions.....	1-4
1.3.3 Hawaii's Participation in the State and Local Climate Change Program.....	1-4
1.3.4 Inventory of Hawaii Greenhouse Gas Emissions, Estimates for 1990.....	1-5
1.3.5 Hawaii's Climate Change Action Plan	1-5
1.3.6 Recommendations Related to Climate Change	1-6

CHAPTER 2 ENERGY, THE ECONOMY, AND THE ENVIRONMENT

2.1 The Need for Energy	2-1
2.2 Energy and Hawaii's Economy.....	2-1
2.2.1 Energy for Economic Activity	2-1
2.2.2 The High Costs of Energy to the Economy.....	2-2
2.2.3 The Economic Risks in Hawaii's Current Energy System.....	2-2
2.3 The Linkage between Hawaii's Energy Use, the Economy, and the Environment.....	2-3
2.3.1 The Oil Spill Threat.....	2-3
2.3.2 Energy Use and Air Quality	2-4
2.3.3 Energy Use and Water Quality.....	2-6
2.3.4 Land Impacts of Energy Use.....	2-6
2.3.5 Energy Use, Greenhouse Gas Emissions, and Climate Change	2-6

2.3.6	Recommendations Related to Climate Change and Hawaii	2-11
2.4	Balancing Energy Needs, Economic Growth, and Environmental Protection	2-11

CHAPTER 3 MEETING HAWAII'S ENERGY NEEDS

3.1	Hawaii's Energy Requirements.....	3-1
3.1.1	Hawaii's Energy Sources 1997.....	3-1
3.1.2	Hawaii's Energy Use and State Energy Policy.....	3-4
3.2	Hawaii's Energy System.....	3-7
3.3	Fossil Energy for Hawaii	3-8
3.3.1	Crude Oil Imports	3-8
3.3.2	Hawaii's Refined Oil Products	3-8
3.3.3	Synthetic Natural Gas Production.....	3-9
3.3.4	Coal Imports	3-10
3.4	Hawaii's Renewable Energy Sources	3-10
3.4.1	Biomass	3-10
3.4.2	Geothermal	3-12
3.4.3	Hydroelectricity	3-12
3.4.4	Solar Photovoltaics	3-12
3.4.5	Solar Thermal Energy	3-13
3.4.6	Wind.....	3-14
3.5	Hawaii's Future Energy Needs.....	3-14
3.6	Future Fossil Energy Supply for Hawaii	3-15
3.6.1	Hawaii and the World Oil Market.....	3-15
3.6.2	The Outlook for Oil.....	3-16
3.6.3	The Outlook for Coal	3-20
3.6.4	The Possibility of Importing Liquefied Natural Gas.....	3-21
3.7	Summary.....	3-22

CHAPTER 4 ENERGY FOR GROUND TRANSPORTATION

4.1	Ground Transportation in Hawaii	4-1
4.2	Ground Transportation Fuel Demand.....	4-1
4.2.1	Current Ground Transportation Fuel Use.....	4-1
4.2.2	Future Ground Transportation Fuel Demand.....	4-3
4.3	Greenhouse Gas Emissions from Ground Transportation Fuel Use.....	4-3
4.4	Economic Effects of Ground Transportation Fuel Use	4-4

4.5	Reducing Ground Transportation Energy Demand	4-4
4.5.1	Improving the Fuel Efficiency of the Hawaii Vehicle Fleet	4-4
4.5.2	Reducing Fuel Use	4-7
4.6	Alternative Fuels for Ground Transportation	4-10
4.6.1	Alternative Fuels	4-10
4.6.2	Encouraging Production and Use of Alternative Fuels in Hawaii.....	4-10

CHAPTER 5 ENERGY FOR AIR TRANSPORTATION

5.1	Air Transportation and Hawaii.....	5-1
5.1.1	Interisland Airlines	5-1
5.1.2	Overseas Air Transportation	5-2
5.2	Air Transportation Energy Demand	5-3
5.2.1	Current Aviation Fuel Use	5-3
5.2.2	Future Aviation Fuel Requirements	5-3
5.3	Greenhouse Gas Emissions from Aviation Fuel Use	5-4
5.4	Economic Effects of Aviation Fuel Use.....	5-5
5.4.1	Cost of Aviation Fuels	5-5
5.4.2	Possible Carbon Taxes.....	5-5
5.5	Reducing Air Transportation Energy Requirements.....	5-6
5.5.1	Actions Taken to Reduce Air Transportation Energy Demand.....	5-6
5.5.2	Recommendations to Reduce Air Transportation Energy Demand.....	5-7
5.5.3	Future Aviation Technology Improvements for Energy Efficiency	5-9

CHAPTER 6 ENERGY FOR MARINE TRANSPORTATION

6.1	Marine Transportation and Hawaii	6-1
6.2	Marine Transportation Energy Demand.....	6-1
6.2.1	Current Marine Fuel Use	6-1
6.2.2	Future Marine Fuel Requirements.....	6-1
6.3	Greenhouse Gas Emissions from Marine Fuel Use	6-1
6.4	Reducing Marine Transportation Energy Demand	6-3
6.4.1	Recommendations for Reducing Marine Fuel Use.....	6-3

CHAPTER 7 GENERATING ELECTRICITY FOR HAWAII

7.1	Overview.....	7-1
7.2	Hawaii's Electricity Challenges	7-1

7.2.1	Growing Electricity Sales.....	7-1
7.2.2	The Rapidly Rising Cost of Electricity	7-2
7.2.3	Greenhouse Gas Emissions from Electricity Generation	7-6
7.3	Changing Ownership of Electricity Generation	7-6
7.4	Fuels for Electricity Generation.....	7-7
7.4.1	Increasing Diversification of Fuels	7-7
7.4.2	Renewable Energy	7-8
7.4.3	Recommendations for Electricity Fuels	7-8
7.5	Integrated Resource Planning and Increased Efficiency.....	7-9
7.6	Electricity for the Island of Oahu.....	7-10
7.6.1	Oahu's Electricity Supply.....	7-10
7.6.2	HECO's Integrated Resource Plan, 1998-2017.....	7-11
7.7	Electricity for the Island of Hawaii.....	7-14
7.7.1	The Island of Hawaii's Electricity Supply	7-14
7.7.2	HELCO's Integrated Resource Plan, 1999-2018	7-15
7.8	Electricity for Kauai.....	7-18
7.8.1	Kauai's Electricity Supply.....	7-19
7.8.2	KE's Integrated Resource Plan, 1997-2016	7-20
7.9	Electricity for Maui, Molokai, and Lanai	7-21
7.9.1	Maui County's Electricity Supply.....	7-21
7.9.2	MECO's Integrated Resource Plan, 1999-2018	7-23
7.10	Where Can Hawaii Build Its Future Power Plants?.....	7-25
7.10.1	The Need and the Dilemma	7-25
7.10.2	Prospects for Future Sites.....	7-26
7.10.3	RECOMMENDATION: Identify, Designate, and Permit Energy Sites for Future Electricity Generation.....	7-28
7.11	The Potential of Future Technology for Electricity Supply	7-29
7.11.1	The Need for New Approaches	7-29
7.11.2	Recommendations for Future Technologies	7-29

CHAPTER 8 INCREASING RENEWABLE ENERGY USE IN HAWAII

8.1	Why Renewable Energy Use Should Be Increased.....	8-1
8.2	Renewable Energy Use in Hawaii	8-1
8.3	Near-Term Prospects for Additional Renewable Energy.....	8-1
8.4	Recommended Renewable Energy Options for Hawaii.....	8-2
8.4.1	Background on the Renewable Energy Recommendations	8-2

8.4.2	Renewable Energy and Oahu	8-5
8.4.3	Renewable Energy and the Island of Hawaii	8-7
8.4.4	Renewable Energy and Kauai	8-9
8.4.5	Renewable Energy and Maui	8-10
8.5	Recommended Actions to Increase Renewable Energy Use in Hawaii	8-11
8.5.1	Accurate Cost Information is Needed for Integrated Resource Planning.....	8-11
8.5.2	Tax Credits to Encourage Renewable Energy Use.....	8-12
8.5.3	Additional Recommendations	8-14
CHAPTER 9 ELECTRICITY COMPETITION AND HAWAII		
9.1	Overview.....	9-1
9.2	Electricity Competition on the Mainland	9-1
9.3	The Proceeding on Electric Competition for Hawaii	9-2
9.4	Benefits of Electricity Competition.....	9-3
9.4.1	Reduced Cost of Electricity and an Improved Economy	9-4
9.4.2	Reduction of Costs and Greater Energy Efficiency.....	9-5
9.4.3	Encourage Use of Advanced, Diverse Generation Technologies	9-6
9.4.4	Greater Use of Renewable Energy and Diversity of Supply	9-6
9.4.5	Customer Choice of Electricity Supplier	9-7
9.4.6	State Energy Policy	9-7
9.5	Possible Competition in Hawaii.....	9-7
9.5.1	Hawaii's Current Competitive Situation.....	9-7
9.5.2	The HE CO Concept for Increased Competition.....	9-8
9.5.3	The Gas Company's Concept for Increased Competition.....	9-10
9.5.4	Unbundling the Electricity System for Competition	9-10
9.5.5	Implementing Competition in Hawaii	9-11
9.5.6	RECOMMENDATION: Consider Restructuring Hawaii's Electricity System.....	9-13
CHAPTER 10 UTILITY AND BOTTLED GAS FOR HAWAII		
10.1	Gas Use in Hawaii	10-1
10.2	Hawaii's Utility Gas Systems	10-1
10.2.1	Utility Gas Supply	10-1
10.2.2	Utility Gas Demand	10-2

10.3	Non-Utility Gas.....	10-3
10.4	Future Demand for Gas.....	10-3
10.5	The Gas Company's Integrated Resource Plan	10-4
10.6	External Costs and Benefits	10-5
10.7	Recommendations for Hawaii's Gas Sector.....	10-6
10.7.1	RECOMMENDATION: Encourage Cost-Effective Renewable Energy Substitution for Gas	10-6
10.7.2	RECOMMENDATION: Encourage Use of Gas as a Fuel for Distributed Electricity Generation and Fuel Cells Where Cost-Effective and Energy Efficient	10-6
10.7.3	RECOMMENDATION: Utility Integrated Resource Planning Should Consider Cost Effective, Energy-Efficient Fuel Substitution between Electricity and Gas	10-6

CHAPTER 11 INCREASING ENERGY EFFICIENCY IN HAWAII'S BUILDINGS

11.1	Building Efficiency	11-1
11.2	Current Building Efficiency Measures in Hawaii.....	11-1
11.2.1	The Model Energy Code	11-1
11.2.2	Utility Demand-Side Management Programs.....	11-3
11.2.3	State Government Efficiency Programs	11-6
11.2.4	County Government Energy Efficiency Programs	11-11
11.2.5	Federal Energy Efficiency Programs in Hawaii	11-12
11.3	New Technologies for Energy Efficiency	11-15
11.3.1	Emerging Energy Efficiency Technologies Identified.....	11-15
11.3.2	RECOMMENDATION: New Measures and Practices for Building Energy Efficiency Should Be Investigated by the Utilities for Technical Potential	11-16

CHAPTER 12 ENERGY EMERGENCY PREPAREDNESS

12.1	Hawaii's Energy Emergency Challenge and Response	12-1
12.1.1	Hawaii's Potential for Energy Emergencies.....	12-1
12.1.2	The State of Hawaii Energy Emergency Preparedness Program.....	12-1
12.1.3	Recent Developments in the EEP Program	12-1
12.2	Hazard Mitigation	12-3
12.2.1	Energy Vulnerability Assessment.....	12-3
12.2.2	State Hazard Mitigation Initiatives	12-3
12.2.3	Young Brothers Hazard Mitigation Project.....	12-5
12.3	Energy Emergency Management	12-5

12.3.1	Energy Council.....	12-5
12.3.2	Y2K and the Energy Council	12-6
12.3.3	Makani Pahili 99 Energy Council Exercise	12-7
12.3.4	State & County EEP Plan Revision.....	12-7
12.4	Recommendations for Further Actions	12-7
12.4.1	RECOMMENDATION: Continue to Support the Readiness of Hawaii's Energy Council and Its Application to Other Jurisdictions.....	12-8
12.4.2	RECOMMENDATION: Continue to Work with USDOE to Provide for Appropriate Procedures for Rule Making and the Exercise of Hawaii's SPR Priority Access Sales Provisions	12-8
12.4.3	RECOMMENDATION: Continue to Regularly Exercise Government and Industry EEP Plans; Emphasize Preparedness on the Local (First Responder) Level	12-8
12.4.4	RECOMMENDATION: Complete Emergency Generator Inventories and Database Documentation of Emergency and Essential Service Facilities.....	12-8
12.4.5	RECOMMENDATION: Complete the Young Brothers' Emergency Generator Hazard Mitigation Project.....	12-9
12.4.6	RECOMMENDATION: Continue to Progress in Hazard Mitigation to Reduce Hawaii's Energy System Vulnerability	12-9
12.4.7	RECOMMENDATION: Develop an ESF-12 Concept of Operations for Activating DBEDT Staff During a Disaster or Market Shortage.....	12-9
12.4.8	RECOMMENDATION: Continue to Work with Counties to Complete Administratively Approved County EEP Plans	12-9

CHAPTER 13 SCENARIOS FOR HAWAII'S ENERGY FUTURE

13.1	Overview.....	13-1
13.2	Electricity Scenarios.....	13-2
13.2.1	Base Scenario.....	13-2
13.2.2	E2 – 20% Renewable Energy Scenario	13-2
13.2.3	E3 – 10% Renewable Energy Scenario	13-2
13.2.4	Results of the Electricity Scenario Runs.....	13-3
13.3	Transportation Energy Scenarios.....	13-4
13.3.1	Baseline Scenario	13-4
13.3.2	T2 – 10% Ethanol Blend Gasoline	13-4
13.3.3	T3 – 10% Increase in New Vehicle Efficiency Scenario	13-4
13.3.4	T4 – 100% Increase in New Vehicle Efficiency Scenario.....	13-4
13.3.5	A2 – Aircraft Efficiency Improvements Scenario.....	13-4

13.3.6	Results of the Transportation Energy Scenario Runs.....	13-5
13.4	Carbon Tax Scenarios	13-5
13.5	Combination Scenario Runs.....	13-7
13.5.1	The Combination Scenarios.....	13-7
13.5.2	Results of the Combination Scenario Runs	13-8
13.6	Comparison of Estimated Economic Effects of Scenarios and Recommendations	13-8
13.6.1	Estimated Effects on GSP and Personal Income.....	13-8
13.6.2	Estimated Effects on Employment.....	13-9
13.6.3	Summary of Scenario Results.....	13-11
13.6.4	Scenario-Based Recommendations.....	13-11

CHAPTER 14 FACILITATING EXPORTS OF SUSTAINABLE TECHNOLOGY TO THE ASIA-PACIFIC REGION

14.1	Hawaii's Strategic Technology Marketing and Development Program.....	14-1
14.1.1	STMAD Partnerships	14-1
14.1.2	STMAD Goal, Priorities, and Activities	14-2
14.1.3	Opportunities in Environmental Technology Exports: Hawaii's Competitive Edge.....	14-2
14.2	Current STMAD Activities	14-3
14.2.1	Center for Asia-Pacific Infrastructure Development.....	14-3
14.2.2	Hawaii-Philippines Energy Efficiency Technology and Policy Transfer Project	14-3
14.2.3	Hawaii-Philippines Biomass-to-Electricity Assessment and Commercial Case Study Project	14-5
14.2.4	Technical and Market Assessments	14-5
14.2.5	Business Opportunities and Technical Exchange Missions	14-6
14.2.6	Other Facilitative Activities.....	14-7
14.3	Specific Recommendations.....	14-8
14.3.1	RECOMMENDATION: Continue to Take Advantage of Federal and NGO Support for State Energy and Environmental Technology Export Initiatives	14-9
14.3.2	RECOMMENDATION: Continue to Conduct Market Analyses and Evaluation Relevant to the Needs of Hawaii Firms Interested in Technology-based Economic Development	14-9
14.3.3	RECOMMENDATION: Continue to Publish The Hawaii Energy, Environmental, and Engineering Export Service Directory	14-9

14.3.4	RECOMMENDATION: Continue to Conduct Business and Technical Exchange Missions and Reverse Trade and Technical Missions	14-10
14.3.5	RECOMMENDATION: Formalize the STMAD Process	14-10
14.3.6	RECOMMENDATION: Actively Advise and Promote Hawaii Energy and Environmental Companies	14-10
14.3.7	RECOMMENDATION: Strongly Support and Sustain the Millennium Workforce Development Initiative	14-11
14.3.8	RECOMMENDATION: Establish a Center for Asia-Pacific Infrastructure Development in Hawaii	14-11
14.3.9	RECOMMENDATION: Continue to Promote Sustainability Programs in Cooperation with the East-West Center's Asia-Pacific Economic Cooperation Program.....	14-12

CHAPTER 15 ENERGY IN HAWAII AND FUTURE TECHNOLOGY

15.1	Overview.....	15-1
15.2	Technology, Economic Growth, and the Environment.....	15-1
15.3	Hawaii Research and Development Projects.....	15-2
15.3.1	Hydrogen: Fuel of the Future.....	15-2
15.3.2	New Technology for Charcoal Production	15-4
15.3.3	Open-Cycle Ocean Thermal Energy Conversion	15-4
15.3.4	International CO ₂ Ocean Sequestration Field Experiment.....	15-5
15.4	Future Technology	15-6
15.4.1	The Need for New Technologies.....	15-6
15.4.2	The Outlook for Technological Solutions.....	15-6
15.4.3	National Goals for Research, Development, and Demonstration (RD&D)	15-9

CHAPTER 16 SUMMARY OF HES 2000 RECOMMENDATIONS

CHAPTER 17 COMMENTS FROM THE HAWAII ENERGY STRATEGY 2000 WORKSHOP

17.1	The Hawaii Energy Strategy 2000 Workshop.....	17-1
17.2	General Comments from Participants.....	17-1
17.2.1	Comments of Henry Curtis, Executive Director, Life of the Land.....	17-1
17.2.2	Comments of Dr. William H. Dorrance, Sc.D	17-3
17.2.3	Comments of Jeff Mikulina, Director, Sierra Club Hawaii Chapter.....	17-4
17.2.4	Comments of Dr. Brenner Munger, Manager, Power Supply Planning and Engineering, Hawaiian Electric Company, Inc	17-11

17.2.5	Comment of Dr. Bruce S. Plasch, Decision Analysts Hawaii	17-16
17.2.6	Comments of John Shin, AES Hawaii	17-16
17.2.7	Comments of Cliff Slater	17-18
17.2.8	Comments of Gabriela Taylor, Citizens for Clean Air	17-18
17.3	Specific Comments Referenced by Chapters in the Report	17-19
17.3.1	Chapter 1 State Energy Policy and Hawaii Energy Strategy 2000	17-19
17.3.2	Chapter 2 Energy, the Economy, and the Environment	17-20
17.3.3	Chapter 3 Meeting Hawaii's Energy Needs	17-21
17.3.4	Chapter 4 Energy for Ground Transportation.....	17-22
17.3.5	Chapter 7 Generating Electricity for Hawaii	17-24
17.3.6	Chapter 8 Increasing Renewable Energy Use in Hawaii.....	17-25
17.3.7	Chapter 11 Increasing Energy Efficiency in Hawaii's Buildings	17-26
